DETAILED ACTION

1. The amendment filed 10/18/07 has now been entered. Due to a previous error, the amendment had not previously been entered and this had caused a lag time in response. The following Office Action now reflects all amendments being fully accounted for.
2. The amendment of 10/18/07, now entered, resolves the 112 error and the claims are all clear.
3. Submitted claims 30-31, 33-50 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: these claims are directed to a network communication system for receiving upgrades to a client in a one way mode, Class 709, Subclass 203.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 30-31, 33-50 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claim 12 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 12 is directed to a computer program product, which per the specification may be software. Such a product is not statutory subject matter.

6. Applicant is invited to contact Examiner at 571-272-4072 to remedy the remaining issue and expedite prosecution.
